

# The People's Assembly, convening on the 21st of October 2025 under the 50th PA Meeting.

The Assembly, recognising the current situation,

Constitutes the need to create a committee on the mushroom island at -5440, 2325 in order to collectively determine what is to be done to the island, taking the different interests into account, including how the existing structures on that island are going to be integrated in the future development. This because there are multiple factions who have opposing plans for this island and this is the most sensible way forward.

Once this motion passes, the SoH will reach out to the PA asking who would like to join the committee.

And proceeds.
