

The People's Assembly, convening on the 28th of June 2022 under the 19th PA Meeting.

The Assembly, recognising the current situation,

Constitutes the need to require 6 hours of total play time before players can be considered active
In addition to this there must be at least an hour of activity every in the last 30 days (at the time of a PA vote) for the players to be considered active.

This because people who don't play on the server shouldn't decide how we play.

Making an exception, namely: RedPanda_4 pays for the server and he is a historically important and active player, thus he should always have activity status.

Note: Being AFK doesn't count towards play time.

And proceeds.
