

28/1/2021 Council of the Server letter to the Council of the Server
Information: P2C5SPE

To hereby inform the People's Assembly,

On 28/1/2021 a major incident occurred with the VillagerSaver plugin, where a villager being cured left behind several hundred duplicates of its zombie villager version. Therefore this plugin is disabled and the difficulty is set to hard, until a solution is found. This to have High Priority.

UFA/Argos is also temporarily authorised to blockade entrance to the building where this occurred, as remains are still to be cleared. Eldegron is to lead this blockade and clear it as soon as possible.
