

# The People's Assembly, convening on the 6th of September 2022 under the 24th PA Meeting.

The Assembly, recognising the current situation,

Constitutes the need to make it possible to throw out a motion that negates one that was passed in the last two meetings or calls for the repealing of one passed in that time period, this by a meeting in majority. Asking for a motion to be repealed/putting in a motion that negates one that was just passed is likely to be redundant as it was just proven to be supported by the majority and is therefore a waste of time and resources.

And proceeds.
