

# The People's Assembly, convening on the 27th of June 2023 under the 31st PA Meeting.

The Assembly, recognising the current situation,

Constitutes the need to make the nether functional for travel and nice.

To have at least one main tunnel (north-south, can also add one east-west) that is big enough for flying with a somewhat standardized design that we vote on. Everyone can connect their portal to the main tunnel.

The idea is to build this directly under the netherroof, and for it to be a community effort.

The design is to be decided in a contest lead by lemongrassjam.

And proceeds.

Signed by,

lemongrassjam
