

The People's Assembly, convening on the 26th of April 2022 under the 13th PA Meeting.

The Assembly, recognising the current situation,

Constitutes the need to overhaul the world heritage site system in the following ways.

1. By establishing 3 categories.

a. Protected, this would entail that no changes may be made without PA authorization and all universal rules apply regardless of state control.

b. Semi-protected, this would entail that only limited changes may be made with authorization of the authorit(y/ies) which are looking out for the reason the site has been recognised as WHS (usually the recognised entity it is in, or an administrative division). For bigger changes PA authorization is required.

c. Natural, this would entail that only very limited terraforming may take place.

2. To set up all existing sites and expand them to be:

| Location | Category | Authority/Authorities |
|---|----------------|--|
| The lake and its banks at X260, Y62, Z420 in the overworld | Semi-protected | Argos |
| The village and its surroundings at X20, Y63, Z-210 aka "The Pillage" | Semi-protected | Jointly Osbos and The Federation of States |
| The village at and around X-292, Y65, Z1285 and its surroundings, extending up to the house at X-151, Y73, Z1291, aka "Spiral City" | Protected | People's Assembly |
| The 3 mountainous islands with jungles around -X900, Y62, Z1335 | Protected | People's Assembly |
| West Chomsky island (Porpoistan) | Semi-Protected | Porpoistan (The Federation of States) |
| The ravine at and around X-725, Y125, Z-1600 | Protected | People's Assembly |
| The valley at and around X-800, Y85, Z-1650 | Natural | N/A |
| The cave-in at and around X-8191, Y150, Z5052 aka "Hell's Gate" | Natural | N/A |

And proceeds.
