

The People's Assembly, convening on the 22nd of March 2022 under the 10th PA Meeting.

The Assembly, recognising the current situation,

Constitutes the need to allow mining under the ocean to be allowed within a claim past 125 blocks off of the shore/coast of the claimants mainland, or major artificial island (more than 16 total blocks). This mining may not result in the destruction of spawners.
This does not apply to specifically controlled areas, f.e. for infrastructure.

And proceeds.
