

# The People's Assembly, convening on the 16th of September 2020 under the 23rd PA Meeting.

The Assembly, recognising the current situation,

Looking at the coming 1.16.3 update and constitutes a need to regulate nether transport. Sets up the following:

The roof will be dedicated to carpet paths towards portals.

Immediately below the roofs there will be icepaths towards portals.

Under the icepaths there will be pistonbolts and raillines.

And proceeds.
