

The People's Assembly, convening on the 2nd of April 2024 under the 42nd PA Meeting.

The Assembly, recognising the current situation,

Constitutes the need to implement the Chocolates plugin. This because coco beans are one of the few plants in Minecraft that have to be hand picked, and yet, there is no way to make actual chocolate in Minecraft. Wouldn't it be fun to have a chocolate industry similar to the alcohol industry and use the stuff for things like parties?
