

The People's Assembly, convening on the 30th of August 2022 under the 23rd PA Meeting.

The Assembly, recognising the current situation,

Constitutes the need to import the castle/island of Liberdade from the second to the current server at a far away place. Panda wants to play on the server but feels that there is nothing that motivates him, and for a long time he as been asking yoran if I can do it, so now im asking you if the CotS can do it. The plans of for the castle is for panda to continue to upgrade the castle/island but keeping the claim in the reasonable size/boundary of the land to be imported.

Size of import: Y 1024 X 512

This is only to be executed when RedPanda_4 reaches an activity index of 2.50 on Player Analytics. No entities, chest contents, etc. are to be imported. Just the building.

And proceeds.
