

The People's Assembly, convening on the 27th of June 2023 under the 31st PA Meeting.

The Assembly, recognising the current situation,

Constitutes the need to recognise New Paris as a “special independent entity”, as a collaborative government of all players. This would make it the first NPC (non player country) in Germania. This recognition would be mostly ceremonial as it would mean the PA acknowledges its existence. Laws in New Paris would be set by a three country security council including Argos, The Republic of Porpoistan and Emerald Islands. It is not to have the same rights as a state in this regard and hence may not interfere with universal rules, server regulations, etc.

And proceeds.
