

The People's Assembly, convening on the 22nd of August 2023 under the 36th PA Meeting.

The Assembly, recognising the current situation,

Constitutes the need to implement a People's Assembly (High Speed) Rail Authority.

This organ would be run by the CotS and base most of their information off of the DKP. It would regulate standards and keep track of rail. It would regulate what rails would fall under the Keep-Chunks plugin.

And proceeds.
