

The People's Assembly, convening on the 9th of December 2025 under the 55th PA Meeting.

The Assembly, recognising the current situation,

Constitutes the need to revoke motions Motion 52-6: "To add a link to the map of the rail network in every station" and Motion 52-7: 'To add a link to the nether transport map to every location in the nether" and instead have the LunarPython Railmap module handle this by periodically sending messages to players with a link to the map.

And proceeds.
