The People's Assembly, convening on the 15th of November 2022 under the 25th PA Meeting.

The Assembly, recognising the current situation,

Constitutes the need to add a warp system with the most traffic points (end xp farm, main spawn, etc.) as well as three different warps per player like Home or something. This because its horrible to get from one point quick to another as well for new players its a mess to deal with all that huge distances and places. It will increase the gameflow and as well makes its quality of life for all new and main players on this server.
