

The People's Assembly, convening on the 19th of May 2026 under the 62nd PA Meeting.

The Assembly, recognising the current situation,

Constitutes the need to proceed upon M50-1 Autism – part 1, as led by the CotS:

Section 1. Updates to part 1

- 1.1. Confirms that M50-1§1.1 and M50-1§2.10 may have been redundant.
- 1.2. Affirms that in M50-1§1.4 the text "... the PA may be ..." was changed to "... the meeting may be ...", making the last sentence of C1.8 read: *"If this quorum is not met, the meeting may be adjourned temporarily until it has been met, at the discretion of the presiding speaker."*
- 1.3. Affirms that in M50-1§1.7 the text "or negates or revokes" is added to the first sentence, making C1.11 read: *"The meeting can choose to throw out a motion if the motion is a repeat from a meeting in the last month or very similar to it, or negates or revokes a motion that was passed in the last two meetings, (except for motions derived from an extraordinary meeting mandated by 1.14.3) if the meeting is in consensus."* C1.13 is further amended by §2.2.1 of this motion.
- 1.4. Clarifies the following about M50-1§2.3: rather than amending O-M52-2, the following appears to have happened to O-M39-4: "O-M52-2 copied (amended) it to the UN, which O-M60-E1 revoked. Later on 2/5/2024@1850 the PA norm apparently evaporated, but later got reinstated (replaced) by M50-1§2.3.". There is no clarification yet and there may never be, hence this article shall be legislatively satisfactory to satisfy any potential consequences.
- 1.5. Clarifies the following about M50-1§2.4: Rather than O-M28-5, it was O-M28-4 that was revived, additionally the lifting of universal rules applies only to the first 3, essentially utilizing Recognized Entities' existing right to deviate from these, hence WHS are exempt from this. This amends SR26.
- 1.6. Clarifies that M50-1§2.5 is regarding the 1st (new) extraordinary meeting (E1/N-E1) rather than the 2nd.
- 1.7. Clarifies that M50-1§2.7 is regarding M32-1 rather than M23-1.
- 1.8. Affirms that in M50-1§2.9 the text "... PA or own initiative ..." was changed to "... PA or its own initiative ...", making CotSR7 read: *"The CotS updates the server on request of the PA or its own initiative, prioritizing safety and stability"*.
- 1.9. Replacing M50-1§2.11 to provide an updated explanation, laid down in Appendix A. Administratively M16-1§6 replaces O-M40-15.

Section 2. PA norms

- 2.1. To amend PA norm 2, amending M50-1§1.6 and replacing M3-8, currently reading as follows: *"Motions are to be put in the #motions channel, where one can upvote to co-sign – entailing they show support and are willing to represent the motion in a meeting when the initiator is absent. Motions are made into a PDF file for the meeting for documentation purposes, and include all signatories. Motions proposing a datapack, plugin or alike, need to supply the link or file(s) itself in*

*This is modern formatting, the motion may also be known as: (N-)1-E4, (N-)M1-E4 (though very incorrect) or (N-)M-1-E4. For more information about Extraordinary Meeting formatting contact the CotS.

**Same as above but for the 3rd of E1.

the motion provided by the initiator.”, and merging PA norm 4 into it, currently reading as follows: ““Joke” and redundant motions are thrown out before meetings start”. The new PA norm 2 is to read as follows, being divided into subsections:

2. Motions are to be put in the #motions channel, where one can upvote to co-sign – entailing they show support and are willing to represent the motion in a meeting when the initiator, who is the primary signatory, is absent.

2.1. Motions may additionally be put in directly to the meeting by any position eligible to preside, in which case the signatory may be their position, or when another motion inherently requires the creation of a new motion, in which case the signatory is reported as procedural, both bypassing the #motions channel. Both scenarios require the motion to be formally submitted by the person acting in the capacity of their position allowing them to initiate either route, to be compliant with C1.6, attaching the same responsibilities as with the normal procedure of putting in a motion.

2.2. Motions proposing a datapack, plugin or alike, need to supply the link or file(s) itself in the motion provided by the initiator, unless they specifically request the CotS develop the requested matter, who may decline and block the motion on the condition that a reason is given.

2.3. Motions proposing a new recognised entity are to include the following: obligatory are the official name, the initial head representative and the borders, optional are the remaining applicable columns in the [PA Laws and Motions’ States sheet](#) as well as providing a banner. If the optional information is not included this must be supplied to the CotS later, who may reject information for the sheet’s optional columns and discuss alternate options with the recognised entity, for example if its the same as that of an existing recognised entity. This is in addition to the responsibilities put on head representatives by the Charter (f.e. C1.16).

2.4. The SoH/CotS are to block”Joke” and redundant motions, and motions which do not comply with relevant requirements or are impossible to implement, unless the initiator makes any required changes if applicable.

2.5. Motions are made into a PDF file for the meeting for documentation purposes, and include all signatories.

2.2. To amend PA norm 3, making it easier to activate, currently it reads as follows: “A meeting can throw out a motion if acting in consensus and the signatories of the motion agree (an absent signatory means the motion can’t be thrown out); additionally a meeting acting in consensus, but with one or more signatories absent, can choose to adjourn a motion.”. It shall read as follows: “A motion can be withdrawn in a meeting if all signatories of the motion are present and agree, additionally, if not all signatories are present, a meeting acting in majority, with the approval from the presiding speaker, can still choose to adjourn a motion.”. Amending M50-1§1.5.

2.2.1. Additionally several amendments to C1.11 shall be made, it shall read as follows:

1.11: The meeting can choose to throw out a motion in one of the following scenarios:

- a. The motion is a repeat from a motion from a meeting in the last four weeks or very similar to it, the meeting has to agree in supermajority; or
- b. The motion negates or revokes a motion that was passed in the last two weeks, the meeting has to agree in supermajority; or
- c. If the meeting agrees in consensus that a motion should be thrown out.

1.11.1: All scenarios require approval from the presiding speaker. Motions derived from an

*This is modern formatting, the motion may also be known as: (N-)1-E4, (N-)M1-E4 (though very incorrect) or (N-)M-1-E4. For more information about Extraordinary Meeting formatting contact the CotS.

**Same as above but for the 3rd of E1.

extraordinary meeting, as mandated by 1.14.3 are exempted from this article.

2.3. To amend PA norm 5, currently stating: “*If the majority of (active player) votes is already in favor, at least half of the head representatives have voted in favor, and there are no votes against, a vote is able to be ended prematurely by the CotS*”, to read as follows: “*If the majority of (active player) votes is already in favor, at least half of the active head representatives have voted in favor, and there are no votes against, a vote is able to be ended prematurely by the CotS and SoH, requiring both to agree, if at least 6 hours have passed in compliance with C1.12*”. This amending O-M52-2§21. C1.13 shall be amended to specify “active” head representatives instead of just voting head representatives, as such: “[...] and at least half of the votes of voting active head representatives [...]”.

2.4. To merge PA norm 6, amending M43-1§9, currently stating: “*Meetings are only to be held if a motion is put in beforehand, or on request of an active player, a speaker, the Speaker of the House or a CotS member.*” into C1.8, which shall read as follows, taking into account §3.2 of this motion: “*Meetings will be held every Tuesday, if a motion has been put in or at the request of an active player or any of the positions eligible to preside, and before the meeting a list of motions that will be debated will be published in the PA discord. A meeting must have at least 15% of active people present with a minimum of 3 people (unless the total amount of active players is below this number) with at least one presiding speaker. If this quorum is not met, the meeting may be adjourned temporarily until it has been met, at the discretion of the presiding speaker.*”

2.5. Adding a new PA norm, reading: “*The SoH and CotS are to maintain relevant SOPs for procedures to compile all relevant steps as described in the Archive, Charter or elsewhere and establish further details and rules where appropriate and permissible. The PA may overrule the SoH/CotS, amend these, and create new ones. The SOPs shall be infra to any other document.*”. The current SOPs can be found in Appendix B. C1.13 shall be amended to include the following clause: “*The PA may establish diverging rules and requirements for special motion types (f.e. amendments) and when they are considered to have passed.*”.

2.6. Adding a new PA norm (and updating the Charter where necessary to allow for this, f.e. C1.13), reading:

x. *In motions which require selecting an option, 2 votes are required: one on whether the motion passes, and one between the options. The following determinations will have to be made either in the motion or if not specified by the motion it will be determined by the presiding speaker:*

x.1.1. *Will both votes happen simultaneously or will one happen before the other, and if so which will be first?*

x.1.2. *If there are only 2 options, the vote selecting an option will simply be between them; if there are more than 2 options, the DKP’s GRVS may also be utilized.*

x.2. *If the motion is rejected, and the option selection vote was planned after it, it shall be cancelled. If the option selection vote ended in a draw, a run-off will be held, unless the motion was rejected in a simultaneous vote, if the motion passed it shall remain pending until an option is selected, if the run-off draws 3 times the SoH shall have the casting vote.*

x.3. *All votes (the motion itself, option-selection, and a possible run-off) are recorded under the motion itself, rather than being split into multiple motions.*

Section x.3. clarifies that while historically they were split into follow-up motions, this recently

*This is modern formatting, the motion may also be known as: (N-)1-E4, (N-)M1-E4 (though very incorrect) or (N-)M-1-E4. For more information about Extraordinary Meeting formatting contact the CotS.

**Same as above but for the 3rd of E1.

changed and the new standard should be codified. As they are no longer split the votes are purely to determine the content of the motion, and hence this is C1.13 compliant.

2.7. Merging PA norm 11, currently reading: *“Clarifying C2.1’s authority over the Nether given to the PA: The PA may not unilaterally and unreasonably amend the borders of recognised entities on the Nether roof.”*, into C2.1 and expanding it by adding a new subsection reading as follows:

“2.1.1: The PA’s authority over the Nether excludes the sovereignty of recognised entities on the Nether roof, the same as all other recognised entities.”

2.8. Allowing for the CotS to reorganize current categories in the Archive, for example changing PA-related SR or General Provisions to be PA norms.

Section 3. Charter

3.1. To add the following definitions to C0:

- a. The Leader of the Council of the Server may be referred to as LoCotS.
- b. The Head of the Council of the Server may be referred to as HoCotS.
- c. A member of the Council of the Server may be referred to as CotSM.
- d. The Speaker of the House may be referred to as SoH.
- e. The Positions Eligible to Preside may be referred to as PEP.

3.1.1. Additionally, in the existing definitions the *“in this document”* is dropped, expanding the scope of the definitions to all PA documents and communications. The CotS’ Abbreviations and standardisations section will be updated to reflect this, as well as the addition of the definition of LoOSnp&w (SR13).

3.2. To amend C1.7, amending M43-1§1, currently stating the following: *“A speaker must open every debate session and make sure all active players and head representatives are notified in the PA discord. The speaker presides over the meeting, leads debates and holds policing authority. If no speakers are available, a CotS member may act as one.”*, to read as follows:

1.7. A position eligible to preside must open every meeting and make sure all active players and head representatives are notified in the PA discord. This presiding speaker presides over the meeting, leads debates and holds policing authority.

1.7.1. The speaker presiding over a meeting is determined using the following order of succession based on availability: The SoH, a normal speaker, the LoCotS or HoCotS, or a CotSM. This person is referred to as the presiding speaker. This group of positions is referred to as the positions eligible to preside.”

These new definitions are to be used to clarify other articles of the Charter as well as other documents.

3.3. Amending C1.14.3 (currently reading: *“All the matters discussed in an extraordinary meeting must be re-discussed and re-voted on in the next normal meeting. This also means that extraordinary meetings may not make irreversible changes or prevent rediscussion/execution of these articles.”*) by merging C1.14.6 (currently reading: *“An extraordinary meeting can not change the charter.”*) into it, resulting in the following: *“All the matters discussed in an extraordinary meeting must be re-discussed and re-voted on in the next normal meeting. This also means that extraordinary meetings may not make irreversible changes, prevent rediscussion/execution of these articles or change the charter.”*

*This is modern formatting, the motion may also be known as: (N-)1-E4, (N-)M1-E4 (though very incorrect) or (N-)M-1-E4. For more information about Extraordinary Meeting formatting contact the CotS.

**Same as above but for the 3rd of E1.

3.3.1. Additionally amending C1.14, currently stating: “Any active member can request an extraordinary meeting, a speaker shall organize this as soon as possible with the following requirements:”, and shall state: “Any active player or any of the positions eligible to preside can request an extraordinary meeting, a position eligible to preside shall organize this as soon as possible with the following requirements:”

3.3.2. Additionally adding the following point to C1.14: “All regular meeting rules not replaced in the above points apply in extraordinary meetings too, except for the presiding speaker's discretion to not allow motions to be put in during the meeting.”.

3.4. To remove the following clauses, replacing, including but not limited to, M43-1§8:

C4.8: “as long as this does not expose critical information for the courts (if so, the PA request must be delayed) or expose personal information about someone or otherwise endangers someone's privacy.”

C5.3.1: “with the exception where this may violate an SC procedure, in which case it must be delayed, or if it endangers someone’s privacy”

Adding a new article to C4 as follows:

x.1: *The CotS may in no circumstance violate or endanger anyone’s privacy or otherwise create dangers or hazards*

x.2: *Furthermore it must not expose information critical to, or otherwise violate, IHC/SC cases, delaying any actions if necessary, unless critically necessary for preserving the server, PA or CotS – this only applies to x.2.*

x.3: *These stipulations apply to any act, communication, institution’s request, motion or alike.*

3.5. Reforming C1.3 of the charter, the current version is laid down in Appendix C and the new version in Appendix D. This includes merging C4.4, currently stating: “The Speaker of the House will also be a member of the CotS”.

3.6. Amends C5.3.2., currently stating the following: “If the CotS deems a Q&A session to not be possible, it may adjourn or skip it. The PA may overrule this decision.”, to state the following: “If the CotS deems a Q&A session to not be possible, it may adjourn or skip it. The PA may overrule this decision if reasonable and holding a session is not physically impossible.”.

3.7. To merge C1.15.1 into C1.15 together with an addition in bold added between them, as follows: “1.15: There is a list of PA meeting norms, **to further decide details on processes or otherwise, these may add on to or clarify stipulations in the Charter under the PA’s jurisdiction.** For a new norm, either the Speaker of the House has to submit it to the CotS for consideration which confirms or denies it, or the PA votes on a motion to accept it. The PA can have a final say on them.”.

3.8. Amending C1.1 removing “active” from it and changing “people” to “players”, currently reading as follows: “The PA is made up of all active people of the server.”, which shall read as follows: “The PA is made up of all players of the server.”, this because inactive players can attend meetings too, among other things.

3.9. Replacing C1.12, currently stating: “Every Wednesday active people can vote online through the PA discord, unless there has been no meeting the day prior.”, with the following: “Voting, for active players, shall take place online in the PA discord for a reasonable duration of at least 6 hours but usually roughly 24 hours, within 24 hours after a meeting. The PA is to regulate when a vote can be ended after 6 but before roughly 24 hours, based on the requirement that the current

*This is modern formatting, the motion may also be known as: (N-)1-E4, (N-)M1-E4 (though very incorrect) or (N-)M-1-E4. For more information about Extraordinary Meeting formatting contact the CotS.

**Same as above but for the 3rd of E1.

outcome can no longer change with more votes.”.

3.10. Amending C3.5 changing *“the speakers and CotS, possibly with”* to *“the positions eligible to preside, with”*. This amends M9-1.

3.11. Amending C1.6 from *“Any player may propose a motion to the PA on any day of the week or within the meeting when the speaker allows it. A motion must contain a title and reasoning/details.”* to *“Any player may propose a motion to the PA on any day of the week or within the meeting when the presiding speaker allows it. A motion must contain at least a title and reasoning/details.”*.

3.12. Amendments are to be made to C2.2.2 to document the greater authority over universal rules 4, 5 and 6 than 1, 2, 3 and partially 7. Suffixing the following to the subsection: *“especially those regarding doxxing, harming the server or RCE/hacking”*.

3.13. C4.7.1 (M24-3), currently reading: *“CotS members who abuse their powers to maliciously ruin the experience of players are to be punished with a removal from OP and a week ban.”*, shall be revoked as its not in line with the Judicial system. This shall be replaced with the regular CotS/SC procedure relating to the UR on toxicity. It should be emphasized that appealing to the SC is still possible when the CotS rejects to handle the case, as laid down in Appendix E.

3.14. The following clauses shall be added to C4.1: *“6. Managing who is OP.”* and *“7. Policing/moderating the server in accordance with the judicial system established by the PA.”*.

3.15. The following clause shall be added to C4: *“The CotS manages its internal procedures and classifications. This may include such things as trial periods for new members, utilizing a conditional/preliminary endorsement under C4.7.”*.

3.16. The new proposed version of the Charter, including all changes in this motion, can be found here: <https://docs.google.com/document/d/1VGLN1Y8Cox-QO6W6tuo8a4zq98FiRXNWjIFTx8687Ss/edit?usp=sharing>.

Section 4. Courts/Judicial

4.1. The current system shall be replaced by the one laid down in Appendix E. M8-1, M17-4 and M16-1§8 shall be replaced, as well as the O-M60-E1 system based on O-M36-1/O-M40-14/O-M52-2 (including §8). O-M36-1§1 remains enacted in the charter but won't be cited. M43-1§8 will be replaced by §3.4 and not cited. SR14 (M9-3) shall be replaced, merging into proposed §3.2 in the “Classification of crimes and jurisdiction” section of Appendix E. This provision shall be codified as SR.

Section 5. Miscellaneous

5.1. To revive O-M31-2, adding a guideline recommending all recognised entities to build an embassy in Osbos, specifically near Embassy Road. The status of O-M31-2 will not change as this is not affecting the motion but its idea. This would replace LoOSnp&w O3.6.

5.2. Clarifying that O-M57-1§1, referring to friends, refers to both the friends and family clause laid down in O-M44-7. Additionally the O-M44-7 and O-M57-1§1/2 chain implemented the requirement that the friend or family of the new player has been playing for a minimum of 1 month; this shall be amended to allow for CotS discretion to drop this requirement.

5.3. To explain that M13-1 replaced the following motions, but inherited further details from them:

*This is modern formatting, the motion may also be known as: (N-)1-E4, (N-)M1-E4 (though very incorrect) or (N-)M-1-E4. For more information about Extraordinary Meeting formatting contact the CotS.

**Same as above but for the 3rd of E1.

M11-2 and M12-3. Hence they shall be revoked but cited. E1-4/M15-E1-4* and M12-2 did get fully replaced. It is also noted that M7-1 is interpreted as converting Spiral City to a WHS, being the basis for M12-2.

5.4. Codifying that M19-7's WHS has been expanded with the world border to include the peninsula, the new borders are shown in Appendix F.

5.5. To amend SR27 (M59-8) in order to clarify, currently reading the following: "*Recognised entities with more than 1 million blocks² per citizen shall be taxed 1 diamond per region file per month, to be paid to the People's Assembly*" and shall read as follows: "*Recognised entities with more than 1 million blocks² per primary citizen shall be taxed 1 diamond per region file over the limit per month, to be paid to the People's Assembly*". The definition of primary citizen is concerning those with multiple citizenship: they can only count for one recognised entity.

5.6. Revoking the exception in M19-4 for RedPanda_4.

5.7. Revoking E1-3/M15-E1-4** as it has become redundant as votes are no longer attributed to recognised entities.

5.8. Providing legislative validity to CotS-35T-Changes_to_the_more_effective_tools_datapack as currently this is undocumented. Amending M17-2, M19-6.

5.9. Splitting M50-1§3.2 (SR6) into two separate entries: one regarding the xp farm and one regarding summoning the ender dragon. Additionally a rule shall be added as follows: "The main end island may not be claimed as territory."

5.10. Extends O-M44-8 and M11-1 codifying that the 31st of March will be a recurring celebratory day like the 2nd of April.

5.11. Codifies M14-3 under the PARA regulations letting the organ manage it. Additionally codifying that the PA can co-manage the PARA regulations, renaming standards to regulations by amending M36-1.

5.12. Moves SR21, replacing M35-1, to CotS regulations, and adds a new clause, based on O-M35-2. The new regulation shall read: "*The CotS manages dynmap markers, which players may request to be added, as well as the borders of recognised entities, and their subdivisions if requested. The PA may also make amendments.*".

5.13. Clarifies that M13-2 (SR16) implies deviation from UR1-3 as with the Osbos Convention, all be it focused on Osbos.

5.14. Amends LoOSnp&w W4.4 (and hence motion M29-1) to remove the broken minecraft-server-list.com website.

5.15. Provides a legal citation for LoOSnp&w O3.4 and O3.5, as well as S&np2.1.

5.16. Amends the Osbosian Treaty (M49-3, LoOSnp&w O3.1, 3.2) to codify that the PA may also amend the treaty and has overruling authority over the council.

And proceeds.

Signed by,
Lunar_Lunatic_

*This is modern formatting, the motion may also be known as: (N-)1-E4, (N-)M1-E4 (though very incorrect) or (N-)M-1-E4. For more information about Extraordinary Meeting formatting contact the CotS.

**Same as above but for the 3rd of E1.

[Motion 62-1: Autism - part 2]

APPENDIX A: CLARIFICATION OF §1.9

The most likely chain of events, based on our current and updated knowledge, is as such:

1. O-M29-1 created an uncoded rule against toxicity, despite stating it should be codified
2. O-M40-14 cleaned stuff in general, including this non-codification, meaning O-M40-15 was created to decide on the continuation of a toxicity ban - which was intended to be codified (as O-M40-15 states)
3. O-M40-15 created what appears to be an uncoded rule/CotS guideline against toxicity, despite stating it should be codified
4. M16-1§6 did finally codify it

The status for O-M29-1 is replaced by O-M40-15 because O-M40-14 doesn't explicitly mention it and if it were implemented fully (codified) it likely wouldn't have affected it

APPENDIX B: SOPs

https://docs.google.com/document/d/1ogpyHf1QBnJpsmJqrzVtd_Jd4Dd1FsKMxWuITpgCL7k/edit?usp=sharing

APPENDIX C: CURRENT C1.3

1.3: There is 1 speaker of the house who holds technical ownership of the PA discord. It is elected with a 2/3rd majority of the PA and the endorsement of either the Leader of the CotS or the Head of the CotS. The speaker of the house also sends new PA norms to the CotS as laid down in 1.15.

1.3.1: The position can be recalled by motion or the CotS can call for new elections (where the PA will get 1 week to prepare). If the person is recalled they must transfer power to the new speaker of the house within 24 hours, if this is not done the CotS may decide to take severe measures to defend the PA and democracy.

1.3.2: The speaker of the house is a normal speaker, however, it does have the added function of controlling that the CotS commits to its tasks without inhibiting the functioning of the CotS.

1.3.3: If there are changes that have to be made to the server which the CotS can not execute, the position must seriously consider the CotS's advice and listen to the PA mandate.

1.3.4: The position must be held by an active player.

APPENDIX D: PROPOSED C1.3

1.3: There is one speaker of the house, who is also a normal speaker and CotS member during their time in the position.

1.3.1: The position holds technical ownership of the PA discord; if the position is vacant this shall be held by either the Leader of the CotS or the Head of the CotS.

1.3.2: The position is elected with a 2/3rd majority of the PA and the endorsement of either the Leader of the CotS or the Head of the CotS. Anyone elected to the position must be an active player at the time of the vote.

1.3.2.1: The position can be recalled by motion, or the CotS can call for new elections (where the PA will get 1 week to prepare). The speaker of the house must transfer all power, including PA discord ownership, within 24 hours to the PA's chosen successor if recalled or the CotS if new elections have been called. If this is not done the CotS may decide to take any measures necessary to protect the PA and its interests.

1.3.3: The additional responsibilities of the position include, but are not limited to, sending new PA norms to the CotS as laid down in 1.15, acting as chair for all speakers and using their CotS membership to monitor the CotS' commitment to and performance of its tasks, without inhibiting

**Same as above but for the 3rd of E1.

their function, and acting as bridge between the CotS and PA where necessary, representing and supporting to communications of both the PA's authority and mandates from its motion, among others, to the CotS and the CotS' advices and interventions, among others, to the PA, balancing both.

APPENDIX E: PROPOSED JUDICIAL/COURT SYSTEM (The version of 21st of April)
